FOR SALE! Kansas City, Mo... First Mortgage Gas Bonds. WM. J. WOLLMAN, NEW YORK. LIQUIDATION OF WHEAT.

DISCOURAGED HOLDERS HASTEN TO GET RID OF THEIR STOCK. Wheat Lost 3-Sc. Corn Lost 1-4c, Oats

Closed a Shade Higher, and Provision Advanced From 7 1-2 to 10c.

CHICAGO, Nov. 30.-Liquidation of December wheat by discouraged holders was the feature of to-day's trading on 'change. December closed at %6½c decline, and May the under yesterday's price. Corn closed Provisions advanced 74:610c.
Opening prices in wheat showed slight

recessions from yesterday's closing figures. May starting %c lower, at 65%@65%c, and recessions from yesterday's closing figures. May starting %c lower, at 65% 65%, and December %c lower, at 65% 7. Trading was remarkable only for its extreme duliness. The early news was of a decidedly bearish character, but it did not result in much increase of liquidation during the morning. There was, however, an almost total lack of support and for some time following the opening, the market showed a drooping tendency. May, after selling at 65% 956, immediately after the opening, slowly declined to 65%. December showed no buoyancy whatever. It declined to 65% and was maintained with some difficulty at that point. Liverpool, by the time trading commenced here, showed 126% decline. Minneapolis and Duluth receipts were 1.55 cars, compared with 328 last week, when railroads were partly blockaded, and 715 a year ago. Chicago receipts were 123 cars, lifteen of contract grade. About 11 o'clock a moderate buying demand was caused by the excellent local cash business and reports of heavy seaboard engagements for export, and for ov— an hour prices, after advancing slightly, were well maintained. May reached the highest point of the day, 66%c, about 11:30, and December heid comparatively firm at 65%. Sales of 10,000 bushels for export were reported here, and New York reported eighty loads engaged. Later this was increased to 100 loads. Total Atlantic clearances were put at 82,000 bushels. Coarse grains exhibited some strength about this time, which was a further assistance. In the last hour of trading the market grew quite weak again and continued so to the close. During this time liquidation of December by tired local holders and by outside interests became prominent. There was also selling by elevator ers and by outside interests became promment. There was also selling by elevator interests of both December and May. Bulls were evidently discouraged at the difficulty in maintaining prices and threw over all the market could carry and more, too. December declined to 55½65½c and closed at 65½65½c. May sold to 55½65½c and closed at 65½65½c.

Corn was irregular. Starting rather made

ed at 65% 655%c.

Corn was irregular. Starting rather weak because clear, cold weather prevailed, the market because clear, cold weather prevailed, the market became stronger on the excellent cash and export business, and on storm predictions and a fair advance was scored. This was maintained until late in the session when the slump in wheat started liquidation and the advantage was lost. Receipts were light, 176 cars. The seaboard claimed ninety loads taken for export. There was a good demand for December from shipping houses. May ranged from 18%c to 24%c, and closed 160%c lower, at 241,034%c.

A good business was done in oats. The interest centered in the December delivery, which jumped a cent as the result of a little buying. The bullish factors were light stocks and the small country movement.

little buying. The builish factors were light stocks and the small country movement. Receipts were 150 cars. Best prices were not maintained, but the market was steady at the close. May ranged from 25 to 25% 627c, and closed a shade higher, at 26% feating the country of the c

Provisions were exceedingly strong, con-Provisions were exceedingly strong, considering the unfavorable surroundings. Hog receipts were large, but offerings of provisions were small, even from packers, indicating that packers needed all supplies to fill earlier sales. Room traders were moderate buyers of the more distant futures. At the close January pork was 16c higher, at \$3.17½; January lard, 7½c higher, at \$4.55, and January ribs 7½c higher, at \$4.55. Estimated receipts Thursday: Wheat, 170; corn, 275; oats, 190 cars; hogs, 41,000 head.

LOCAL GRAIN MARKET.

A Light Week in Wheat-Corn Firm and Oats Higher and Scarce.

In store Wheat, 972,800 bushels; corp. 73,900 bushels; outs, 18,000 bushels; rye, 62,200 bushels. Wheat.

About 200,000 husbels of wheat were sold for export at Chicago May wheat, good next week, were quoted at 64½c; calls, 68c; puts on May corn, 33½c; calls, 35c.

A New York message yesterday reported 60 loads of wheat, 35 loads of corn and 109,000 husbels of oats taken for export.

A New York message yesterday said: It is said that a large cargo of 129,000 husbels of No. 2 red wheat has been sold to go to Spain.

The Peavey elevator at Minneapolis was partially burned yesterday. The damage was small. There are 115,000 husbels of corn in the elevator.

German imports of wheat during October were 7,192,000 husbels, against 4,255,000 husbels during September, and 6,250,000 husbels of corn and 60,000 husbels of corn at outports.

Exporters took at New York yesterday 224,000 husbels of rye; also, 208,000 husbels of wheat and 240,000 husbels of corn at outports.

A Minneapolis message yesterday said: Saturday, Sunday and Monday there were loaded out of regular houses 500,000 husbels of wheat for Duluth. It looks as if there might be a good sized demand here this week.

Captain Phillips, of Chicago, says: The condition of corn in Hillingt, Missouri and Kentucky is poor. There is more rotten corn than I ever saw before, and the yield is disappointing. I don't think any will inspect before summer.

The temperature has fallen in the Northwest and in lows, but shewhere it romains around the freezator point. Light rain or snow, with slight change in going to Holland, and 15,642 bags of bran went to Germany.

Puts on Chicago May wheat, good to-day, sold themperature, is predicted. The weather generally is unsettled.

During the week ending November 26, 207,200 bushels of buckwheat were 11,17100 bushels, which went mainly to Holland, and 15,642 bags of bran went to Germany.

Puts on Chicago May wheat, good to-day, sold possess of buckwheat were exported from New York to Succeed a count at 65%c; calls, 66% 66%c, and closed at 65%c; says obushels; and year ago, 715,000 bushels. Shipments, 533,000 bushels of poor, 150,000 bushels

No. 3 mixed, nominally 274-6280. No. 4 mixed, 1 car at 264-c.

white of younds at the. International Shares Suffered the Most-Bonds Were Unsettled With Stocks, but in Fair Demand.

Money still seems abundant and easy everywhere. Especially is this true in the East. The flow of money is again from the interior to the financial centers there. New York last week gained \$2,250,000 from the country, and \$17,000,000 was released by the liquidation of old bond contracts. The result has been an easing of rates and the accumulation of much idle money. Call loans have been ranging from 1½ to 2½ per cent and time paper 2½ to 3½ per cent. The demand for money on commercial paper continues light, the ten leading commercial centers putting out only 32½ per cent of their new loans on commercial paper. The New York bank statement Saturchy showed a decrease in loans of \$2,245,000, in specie of \$372,100, but an increase in legal tenders of \$1,630,200, and in the surplus reserve of \$1,630,200, making it now \$18,537,575 above the 25 per cent rule. The loss in loans, affecting deposits and leasening the reserve requirements, swell the surplus, which, with the gains of cash from the country, resulted in the above cited case. The banks all reporting a liberal supply of money to lend. Boston, Philadelphia and Baltimore also report money in good supply and easy.

Here in the West the loan market remains much the same as a week ago. While the new demand for money here is falling off, yet there is more or less renewing being done, and the banks all report a good volume of loans. Yet here, as elsewhere, the feeling is easy, though old rates are still maintained at 7g5 per cent. Currency moving to the country less free-ty. Bank clearings for the week ending Wednesday, \$11,246,678, against \$10,649,447, an increase of \$597,229, a gain of 5 per cent.

a gain of 5 per cent.

Stocks and Bonds.

NEW YORK, Nov. 20.—The market for stocks in Wall street hinged very largely to-day on the financial situation abroad. Berlin was again evidently the source of the pressure for accommodation and its urgent needs resulted in the sympathetic hardening of the rates for money at London and Paris, call money at London rising to 3 per cent. The price of gold bars rows an additional fraction in London, but gold to the amount of \$2.549.000 was withdrawn from the Bank of England. Of this amount \$1.000.000 was shipped to the United States and probably the rest went to Germany. The engagement for the United States was the outcome of the recent tendency toward lower rates for money at foreign centers, which left so narrow a margin of profits on the withholding of the exchange which is constantly accumulating at New York as a result of the continued heavy exports of merchandise that the movement of gold is necessary to meet the obligations. The rise in the money rate in London yesterday again affected a margin of profits on loans made abroad and the result was seen in a rise in sterling exchange in New York, reflecting a new demand for investment in sterling which will necessarily put an end to the gold movement for the present. The incident may be accepted as an admonition to the foreign money markets that they must pay a good rate of interest if they want the use of the credits established by this country's favorable trade balance. Otherwise the activity of business at home and the needs for financing enormus consolidations and the formation of huge new corporations will necessitate the calling home of these credits. The effect of the tightening money markets abroad was to throw a burden of liquidation on the local stock market, the international stocks of course, showing greatest weakness. In view of the large flower was the common stock indicates rather an aggressive strengthening of resources than a resignation to an accomplished agreement, as Oregon Short Line of the common stock indicates rather an CASTOR BEANS—Selling fairly. b. Kannan City:

Choice green hurl

Choice green self-working

Good green hurl

Good green self-working

Choice red or yellow tipped hurl

Choice red or yellow tipped hurl stock for Union Pacific common stock indicates rather an aggressive strengthening of resources than a resignation to an accomplished agreement, as Oregon Short Line owns a majority of common stock of Oregon Navigation, thus insuring an outlet for the Union Pacific to the Northwest coast. The latter's strength in the market radiated from Union Pacific. Sugar's strength was due to the rumors of consolidation with the glucose company. Rubber stocks made the usual response to the prevailing gum above weather. General electric advanced on the belief of a pending disbursement of accumulated dividends of the preferred stock. There was strength also in a few of the obscure low priced stocks. The rise in Manhattan was unexplained. The declines were largely recovered, but the day's net changes were decidedly mixed.

The bond market was irregular in sympathy with the stocks, but business was fairly large and well distributed. United States 2s advanced \$\frac{1}{2}\$ in the bid price.

SALE OF SCOTT & MARCH'S HERE. FORDS-AVERAGE, \$147.66. The Sale a Fair One-Most Cattle Were Young-Idaho Sheepmen Doing Well-Visit ors at the Yards W th Stock.

The public sale of pure-bred Hereford cathle here yetterday by Scott & March, of Belton, Mo. was a fair success. The weather was against the sale and doubtless kept some Luyers home. But while the atkept some buyers home. But while the attendance was not large, those here meant business. The cattle were mostly young things and while a good serviceable lot were not fashionably bred. Prices, therefore, fell short of the previous sales of "white faces" made here this fall under more favorable circumstances. Yet the bulls especially did fairly well, twenty-eight head averaging \$155. No fancy prices was paid for anything, the top being \$256, at which price a number of sales were made. There were sales of sixty-four head in all—cows, helfers and bulls—at an average of \$147.65.

"The sheep interest of Idaho is an important and growing one." said A. J. Knollin, who is just back from Soda Springs where he has been since last spring buying lambs for winter feeding. "Sheep men in that country are doing well under the present wool tariff," he said. "The wool clip was good and it was sold early and brought 3 to 5 cents more per pound than last year and the lamb crop was good and they found ready sale at \$2.50 per head, which is about 25 cents per hundred higher than last season. The sheep men are making money in that country and increasing their holdings.

"As for winter feeding in Kansas and Nebraska, of course there are a good many being fed, though I don't think the num-ber will reach last winter's, as raisers have wanted too much for their young stock, and feed is a little higher."

"There are not so many cattle in our country as last year," said Frank Collinson, of Clarendon, Tex., who was at the yards yesterday, "but what there, are good. Buyers have offered such prices that ranchmen have sold pretty close. The range is good and cattle doing well."

.. 2,681 "There are not so many cattle in Vernon county as last year," said Frank Mc-Govney, of Milo, Mo., who was here yesterday with hogs, "but there are the usual number of hogs on hand. Corn good and stock doing well." .14,023

> William Steffen, of Ellis, Neb., was in with hogs yesterday.
>
> George C. Mason brought hogs from Arcadia, Kas., yesterday. E. W. Miller, of Cival Bend, Mo., was here with hogs yesterday. August Furst, of Corning, Kas., had hogs on the market yesterday. William Moad, of Belton, Mo., had sheep on the market vesterday W. B. Pope, of Parkville, Mo., had hogs on the market yesterday. W. W. Irons came in with cattle from Sylvadale, Kas., yesterday.

J. W. Robinson came in from Olathe, Kas., yesterday with hogs. Patt Green brought hogs to market yes-terday from McCune, Kas. B. R. Johnson was here with hogs from Sweet Springs, Mo., yesterday. H. H. Holmes, of Jackson county, Mo., came in yesterday with hogs. Carnes Bros. brought cattle to market yesterday from Trenton, Mo. Todd & Keys, of Nowata, I. T., had hogs on the market yesterday. hogs on the market yesterday.
